

### CONGRATULATIONS! Ultra-Chrome makes your vehicle "yours!"

**WHAT IS ULTRA-CHROME™?** An advanced chromium laminate manufactured in Germany.

**WHO ELSE USES ULTRA-CHROME™?** Every Auto manufacturer today has widely tested, and applied this same Chromium on today's hottest models.

**WHY ULTRA-CHROME™ NOT STAINLESS STEEL?**

- **DURABILITY** – OEM's need each part of a vehicle's exterior to endure the real world; chrome trim and parts cannot pit, peel, or tarnish to be used by OEM's.
- **APPEARANCE** – Ultra-Chrome once installed is a quality fit and appearance.
- **INSTALLATION** - Contours to curved surfaces, will not kink if bent, cut your skin or scratch your paint like unfinished Stainless Steel trim.
- **MAINTENANCE** - Just wash to keep them looking their best! DO NOT POLISH!

**WHY DOES MY PART APPEAR TO BE DULL, GREY, FLIMSY, EVEN CHEAP?**

- **PEEL THE PROTECTIVE LAYER** - A clear film protects Ultra-Chrome's finish until installed. Peel the film, to reveal the glossy chrome finish (3 layers may exist).
- **ACTUAL CHROMIUM TRIM** - The slight nickel (dark chrome) finish is a UV protection layer. Cures after application and exposure to elements.
- **HIGHEST QUALITY & CLASSY FINISH** - All materials developed for the automotive industry undergo batteries of tests performed by the OEM's. The tests for exterior components and trim are demanding for the high standard required by today's hottest cars and trucks. A majority of OEM's measure component quality by its durability, mile after mile enduring the elements and maintaining a like-new appearance.

### ULTRA-CHROME™ TOLERANCE SPECS & OEM TEST RESULTS

Humidity Resistance	104°F @ 100% RH	Passed
Water immersion	100 hours @ 104°F	Passed
Salt Spray	240 hours DIN 50021	Passed
UV Stability	500 hours Xenotest 150 @ 140°F	Passed
Natural weathering	12 months @ 60°F± Florida	Passed
Acid Resistance	Ford BL 13-2	Passed
Acid Resistance	Chrysler 463DV6-01	Passed
Abrasion RCA	300 g	200 Strokes
Abrasion Taber Abrader CS10	500g	200 Cycles
Sandpaper	600 grit	20 Strokes
Scratch Resistance	Test device type 318	700g
Accelerated Aging	7+days @ 194°F no chg	Passed

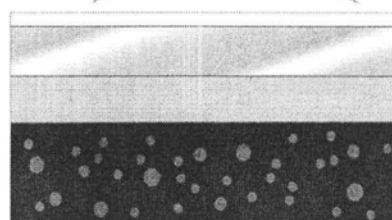

### GUARANTEED FOR LIFE!

We guarantee that Ultra-Chrome will not fade, peel, dent, corrode, or rust. If our product should fail, we will replace it for free!

**FOR THE LIFE OF YOUR VEHICLE!**
